DIRECTIONS: Take one to two capsules one to two times daily, or as directed by your healthcare practitioner.

Consult your healthcare practitioner prior to use. Individuals taking medication should discuss potential interactions with their healthcare practitioner. Do not use if tamper seal is damaged.

S-Acetyl Glutathione is an acetylated form of glutathione. This form is well-absorbed and more stable throughout the digestive tract than other forms on the market. Use of stomach acid-resistant capsules (DRcaps®) further protect stability. Laboratory data showed that S-acetyl glutathione increased intracellular glutathione and had a positive effect on many oxidative stress biomarkers."
