To further support resistance to low pH and the delivery of microorganisms to the small intestine, XYMOGEN employs Drcaps[™] gastro-resistant capsules. These specially designed, innovative capsules help slow exposure of actives to stomach acid and ensure more targeted release.*

ProbioMax[®] DF is a vegetarian, dairy- and gluten-free, four-strain probiotic totaling 100 billion CFU[†] per capsule. Each vegetarian capsule is sealed in nitrogen-purged aluminum blister packs to serve as protection from factors proven to compromise the stability of probiotics such as heat, moisture, and oxygen. ProbioMax DF provides four researched strains of beneficial bacteria, including the extensively studied HNO19[®] strain of *Bifidobacterium lactis*. These live microorganisms have proven health benefits and well-established safety, and have been tested for epithelial cell adhesion and/or resistance to low pH.*

Consult your healthcare practitioner prior to use. Individuals taking medication should discuss potential interactions with their healthcare practitioner.

DIRECTIONS: Take one capsule with water daily, or as directed by your healthcare practitioner.
