

PROFESSIONAL USE ONLY

Not for resale on third-party websites, including, but not limited to, Amazon® and eBay®.

DIRECTIONS: Mix two scoops (38 g) in 8-12 oz cold water and consume. Adjust amount of water according to thickness desired.

Consult your healthcare practitioner prior to use. Individuals taking medication should discuss potential interactions with their healthcare practitioner. Do not use if tamper seal is damaged.

WARNING: Very low calorie protein diets (below 400 Calories per day) may cause serious illness or death. Do Not Use for Weight Reduction in Such Diets Without Medical Supervision. Not for use by infants, children, or pregnant or nursing women.

FIT Food™ Lean Whey represents an extraordinary breakthrough in body composition/weight management functional food formulas.

Our medical board of advisors' primary objective in researching and developing FIT Food Lean Whey was to find a pure source of quality whey protein that is free of genetically-engineered hormones (rBST and rBGH) which, though banned in other countries, are used in the United States dairy industry. There are growing concerns regarding the effects of these hormones, especially in early puberty.

After a thorough review, our researchers determined that the stringent standards imposed by the New Zealand Ministry of Agriculture and Forestry (MAF) upon New Zealand dairy farmers results in the purest and most bioactive whey protein available. In addition to prohibiting the use of synthetic hormones in New Zealand's dairy industry, MAF-mandated feeding, climate, and calf-birthing practices further contribute to the superior quality of New Zealand's whey protein. Although importing New Zealand whey protein into the United States is more costly, our board of advisors recommended that FIT Food Lean Whey must contain 100% pure New Zealand whey protein.

FIT Food Lean Whey promotes fat burning and improved lean body mass with the following enhancement!:

	FIT Food Lean Whey	Soy-Based Formula	FIT Food Lean Whey Superiority
Biological Value (BV)	104	74	40%
Protein Equivalency	21 Grams (one serving)	30 Grams (two servings)	The BV of bioactive whey is 40% greater than that of soy protein. As a result, 30 grams (two servings) of the soy formula would be required to equal the amino acid nourishment of just 21 grams (one serving) of FIT Food Lean Whey.
Source of Protein	Imported New Zealand	Domestic United States	The New Zealand MAF imposes the most stringent environmental requirements on New Zealand farmers.
Dietary Fiber	6 Grams	5 Grams	20%
Naturally Occurring Immunoglobulins	2.1 Grams	0 Grams	Support the immune system and intestinal function.†

- 100% BioActive Whey Protein with Natural Immunoglobulins
- Low Glycemic Index
- No Soy
- No Added Sugar, Stevia, or Artificial Sweeteners
- Sweetened with Monk Fruit
